

Dear Nicola,

I refer to your further query below regarding the National Strategy on domestic, Sexual and gender-based Violence.

The Courts Service position in relation to the Victims Directive and as regards Questions 5 and 6 is that the Courts Service provides the best service and facilities it can for all court users including victims and will continue to do so. The Courts Service will comply with the requirements of the victims directive in so far as they relate to the Service.

I trust this clarifies the position for you

Regards

Brenda Casey
